

Self-Cleaning Rotary Solder Bath Vortex 800

The ZEVATRON *Vortex 800* is a completely new rotary Solder Bath. It is based on our long-time experience in solder bath construction and with lead free soldering.

Please have a look at our homepage www.zevatron.com You will find detailed information as well as drawings and news.

Technical Data Vortex 800

L x B x H (mm)	500x300x450
Weight approx.	33 kg
Solder content	app. 4 kg
Solder bath depth	75 mm
Max. surface (Ø mm)	110 / 90
Temperature max.	app. 500 °C
Supply Voltage	230 V
Power rating	1200 W
Speed	up to 25 rpm

Technical Equipment and Advantages

- Self-cleaning solder surface by rotation
- Infinitely variable rotation speed up to 25 rpm
- Selectable rotation: permanent or by foot switch
- Integrated collecting tray for oxides
- High handling security
- High precision temperature regulation up to 500 °C
- Digital actual and nominal temperature value
- Solder level control (optional)
- Automatic solder supply with infinitely variable speed (optional)
- Solder wire Ø 1 mm (optional)

Best suitable for leadfree soldering
